1. **Taiwan in dynamic transition : nation-building and democratization / Edited by Ryan Dunch and Ashley Esarey. - Seattle: University of Washington Press, 2020.235p.**

**Abstract:** Taiwan's emergent nationhood poses a fundamental challenge to the global political order. Following a remarkable transition from authoritarian rule to robust democracy, this island society has become a prosperous but widely unrecognized nation-state for which no uncontested sovereign space exists. Increasingly vigorous assertions of Taiwanese identity expose the fragility of relationships between the United States and other great powers that assume Taiwan will eventually unite with China. Perhaps because of their precarious international position, Taiwanese have embraced cosmopolitan culture and democratic institutions more fully than most Asians. The 2014 Sunflower Movement, in which demonstrators occupied parliament to protest a free trade agreement with China, thrust Taiwan politics into the global media spotlight, as did the resounding victory of the once-illegal Democratic Progressive Party in 2016. *Taiwan in Dynamic Transition* provides an up-to-date treatment of contemporary Taiwan, highlighting Taiwan's emergent nationhood and its implications for world politics. The book provides a new interpretive framework and series of case studies that together construct a vivid picture of how contemporary Taiwanese think about their nationhood, with specific examples of nation-building and democratization in social practice. The Taiwan case has important implications for broader themes and preoccupations in contemporary thought, such as consideration of why transitions in the aftermath of the Arab Spring have sputtered or failed, while Taiwan has evolved into a stable and prosperous democratic society. Taiwan serves as a test case for nation- and state-building, the formation of national identity, and the emergence of democratic norms in real time.

**Iran, revolution, and proxy wars / Ofira Seliktar and Farhad Rezaei. - Switzerland: Palgrave Macmillan, 2020. 245p.**

**Abstract:** This book analyzes the historical quest of the Islamic Republic of Iran to export its revolution to the Muslim countries in the Middle East and beyond. The authors argue that Iran exported its revolution by using proxies such as Hezbollah, the Iraqi Shite militias, and the Houthis. The study unravels the casual chain behind less-known cases of Iranian sponsorship of al Qaeda (Central) and al Qaida in Iraq. It combines rigorous theory with detailed empirical analysis which can add to the current debate about ways to roll back Iran's revolutionary export. Ofira Seliktar is Professor Emeritus of Political Science at Gratz College, USA. She is widely published and recently co-authored *Iran, Israel, and the United States: The Politics of Counterproliferation Nuclear Intelligence* with Farhad Rezaei. Farhad Rezaei is Iran's foreign policy analyst and author of numerous books and articles on Iran's foreign policy, Iran's nuclear program, nuclear intelligence, and nuclear and radiological terrorism. He recently authored *Iran's Foreign Policy After the Nuclear Agreement: Politics of Normalizers and Traditionalists*.

**Hong Kong in revolt, the protest movement and the future of China / Au Loong-Yu. - London: Pluto Press, 2020. 198p.**

**Abstract:** Hong Kong is in turmoil, with a new generation of young and politically active citizens shaking the regime. From the Umbrella Movement in 2014 to the defeat of the Extradition Bill and beyond, the protestors' demands have become more radical, and their actions more drastic. Their bravery emboldened the labour movement and launched the first successful political strike in half a century, followed by the broadening of the democratic movement as a whole. But the new generation's aspiration goes far beyond the political. It is a generation that strongly associates itself with a Hong Kong identity, with inclusivity and openness. This book sets the new protest movements within the context of the colonisation, revolution and modernisation of China. Au Loong-Yu explores Hong Kong's unique position in this history and the reaction the protests have generated on the Mainland. Looking deeper into the roots and intricacies of the movement, the role of 'Western Values' vs 'Communism' and 'Hong Kongness' vs 'Chineseness', the cultural and political battles are understood through a broader geopolitical history. For good or for bad, Hong Kong has become one of the battle fields of the great historic contest between the US, the UK and China.

#### 4. Ikenberry, G. John

**World safe for democracy : liberal internationalism and the crises of global order / G. John Ikenberry.**  
- New Haven: Yale University Press, 2020. 408p.

**Abstract:** A sweeping account of the rise and evolution of liberal internationalism in the modern era. For two hundred years, the grand project of liberal internationalism has been to build a world order that is open, loosely rules-based, and oriented toward progressive ideas. Today this project is in crisis, threatened from the outside by illiberal challengers and from the inside by nationalist-populist movements. This timely book offers the first full account of liberal internationalism's long journey from its nineteenth-century roots to today's fractured political moment. Creating an international "space" for liberal democracy, preserving rights and protections within and between countries, and balancing conflicting values such as liberty and equality, openness and social solidarity, and sovereignty and interdependence--these are the guiding aims that have propelled liberal internationalism through the upheavals of the past two centuries. G. John Ikenberry argues that in a twenty-first century marked by rising economic and security interdependence, liberal internationalism--reformed and reimagined--remains the most viable project to protect liberal democracy.

**5. Oxford handbook of international security / Edited by Alexandra Gheciu and William Curti Wohlforth. - United Kingdom: Oxford University Press, 2020. 754p.**

**Abstract:** This Oxford Handbook is the definitive volume on the state of international security and the academic field of security studies. It provides a tour of the most innovative and exciting news areas of research as well as major developments in established lines of inquiry. It presents a comprehensive portrait of an exciting field, with a distinctively forward-looking theme, focusing on the question: what does it mean to think about the future of international security? The key assumption underpinning this volume is that all scholarly claims about international security, both normative and positive, have implications for the future. By examining international security to extract implications for the future, the volume provides clarity about the real meaning and practical implications for those involved in this field. Yet, contributions to this volume are not exclusively forecasts or prognostications, and the volume reflects the fact that, within the field of security studies, there are diverse views on how to think about the future. Readers will find in this volume some of the most influential mainstream (positivist) voices in the field of international security as well as some of the best known scholars representing various branches of critical thinking about security. The topics covered in the Handbook range from conventional international security themes such as arms control, alliances and Great Power politics, to "new security" issues such as global health, the roles of non-state actors, cyber-security, and the power of visual representations in international security. The Oxford Handbooks of International Relations is a twelve-volume set of reference books offering authoritative and innovative engagements with the principal sub-fields of International Relations. The series as a whole is under the General Editorship of Christian Reus-Smit of the University of Queensland and Duncan Snidal of the University of Oxford, with each volume edited by a distinguished pair of specialists in their respective fields. The series both surveys the broad terrain of International Relations scholarship and reshapes it, pushing each sub-field in challenging new directions. Following the example of the original Reus-Smit and Snidal The Oxford Handbook of International Relations, each volume is organized around a strong central thematic by a pair of scholars drawn from alternative perspectives, reading its sub-field in an entirely new way, and pushing scholarship in challenging new directions.

**Israeli foreign policy : a people shall not dwell alone / Uri Bialer. - Bloomington: Indiana University Press, 2020. 356p.**

**Abstract:** Uri Bialer lays a foundation for understanding the principal aspects of Israeli foreign policy from the early days of the state's existence to the Oslo Accords. He presents a synthetic reading of sources, many of which are recently declassified official documents, to cover Israeli foreign policy over a broad chronological expanse. Bialer focuses on the objectives of Israel's foreign policy and its actualization, especially as it concerned immigration policy, oil resources, and the procurement of armaments. In addition to identifying important state actors, Bialer highlights the many figures who had no defined diplomatic roles but were influential in establishing foreign policy goals. He shows how foreign policy was essential to the political, economic, and social well-being of the state and how it helped to deal with Israel's most intractable problem, the resolution of the conflict with Arab states and the Palestinians.

## 10. Navon, Emmanuel

**Star and the scepter : a diplomatic history of Israel / Emmanuel Navon. - Lincoln: University of Nebraska Press, 2020. 508p.**

**Abstract:** The first all-encompassing book on Israel's foreign policy and the diplomatic history of the Jewish people, *The Star and the Scepter* retraces and explains the interactions of Jews with other nations from the ancient kingdoms of Israel to modernity. Starting with the Hebrew Bible, Emmanuel Navon argues that one cannot grasp Israel's interactions with the world without understanding how Judaism's founding document has shaped the Jewish psyche. He sheds light on the people of Israel's foreign policy through the ages: the ancient kingdoms of Israel, Jewish diasporas in Europe from the Middle Ages to the emancipation, the emerging nineteenth-century Zionist movement, and Zionist diplomacy following World War I and surrounding World War II. Navon elucidates Israel's foreign policy from the birth of the state in 1948 to our days: the dilemmas and choices at the beginning of the Cold War; Israel's attempts to establish periphery alliances; the Arab-Israeli conflict; Israel's relations with Europe, the United States, Russia, Asia, Africa, Latin America, the United Nations, and the Jewish diasporas; and how twenty-first-century energy geopolitics is transforming Israel's foreign relations today. Navon's analysis is rooted in two central ideas, represented by the Star of David (faith) and the scepter (political power). First, he contends that the interactions of Jews with the world have always been best served by combining faith with pragmatism. Second, Navon shows how the state of Israel owes its diplomatic achievements to national assertiveness and hard power—not only military strength but economic prowess and technological innovation. Demonstrating that diplomacy is a balancing act between ideals and realpolitik, *The Star and the Scepter* draws aspirational and pragmatic lessons from Israel's exceptional diplomatic history.

## 11. Falola, Toyin

**United States and Africa relations, 1400s to the present / Toyin Falola and Raphael Chijioke Njoku. - New Haven: Yale University Press, 2020. 395p.**

**Abstract:** This multilayered study of the history of relations between Africa and the Americas focuses on the United States from the colonial era to the present. The book's intent is to provide those interested in Africana studies, African American studies, African studies, Atlantic history, world history, and international relations with a one-stop account of Africa's bonding with the United States. The relationship began with the dawn of the trans-Atlantic slave trade, which preceded the official founding of the United States. The early stage of relations highlight the contours of slavery and African American struggles for survival, emancipation, and reconnection with the African ancestral homeland. Tracing history to the early colonial era allows us to account for shifting concepts, geographical spaces, and peoples. Africa, Pan-Africanism, and the United States have meant different things at different times to different peoples, including the new millennials who ushered in the presidency of Barack Obama in 2008. In this book's view, the manner in which Whites treated Blacks in America shaped the nature and substance of the United States-Africa relationship. The United States-Africa relations are analogous to a marital relationship. They share all the suspense, resolution, love, and hate that go with every connubial relationship, especially a forced marriage. They further denote the allure of creolization, trust and betrayal, patriarchal authority and defiance, the sublimity of rights and wrongs associated with kinship belonging, the consequences of the actions, inactions, and indulgences of members in a common union, and of course the rigors of hubris, abuses, diplomacy, and the throes of conflict and peacemaking. The African American experience was the most notable life force that produced the trans-Atlantic exchanges and continued to drive them until 1900. This process will likely continue to affect the future of United States-Africa relations.

## 12. Freyemann, Eyck

**One Belt One Road : Chinese power meets the world / Eyck Freyemann. - Cambridge, Massachusetts: Harvard University Asia Center, 2021. 333p.**

**Abstract:** In 2013, Chinese leader Xi Jinping announced a campaign for national rejuvenation. The One Belt One Road initiative, or OBOR, has become the largest infrastructure program in history. Nearly every Chinese province, city, major business, bank, and university have been mobilized to serve it, spending hundreds of billions of dollars overseas building ports and railroads, laying fiber cables, and launching satellites. Using a trove of Chinese sources, author Eyck Freyemann argues these infrastructure projects are a sideshow. OBOR is primarily a campaign to restore an ancient model in which foreign emissaries paid tribute to the Chinese emperor, offering gifts in exchange for political patronage. Xi sees himself as a sort of modern-day emperor, determined to restore China's past greatness. Many experts assume that Xi's nakedly neo-imperial scheme couldn't possibly work. Freyemann shows how wrong they are. China isn't preying on victims, Freyemann argues. It's attracting willing partners—including Western allies—from Latin America to Southeast Asia to the Persian Gulf. Even in countries where OBOR megaprojects fail, Freyemann finds that political leaders still want closer ties with China. Freyemann tells the monumental story of Xi's project on the global stage. Drawing on primary documents in five languages, interviews with senior officials, and on-the-ground case studies from Malaysia to Greece, Russia to Iran, Freyemann pulls back the veil of propaganda about OBOR, giving readers a page-turning world tour of the burgeoning Chinese empire, a guide for understanding China's motives and tactics, and clear recommendations for how the West can compete.

**India in the era of China's Belt and Road Initiative : how Modi responds to Xi / Anil Sigdel. - Lanham, Maryland: Lexington Books, 2020. 203p.**

**Abstract:** Anil Sigdel dives into some of the most interesting trends in international relations, such as the rising influence of China and the instruments it uses to advance its interests worldwide, chiefly among them the Belt and Road Initiative(BRI) and the interplay between China and India, and what means New Delhi employs to come after China in the wider world. To this end, Sigdel takes both a geographic view by analyzing China's and India's relations with key regions – South East to Central Asia, Indian Ocean Region and Africa - and a functional view scrutinizing issues of relevance to the main topic – from cultural ties to infrastructure investment and maritime security. In his incisive analysis, Sigdel provides rich details on how India's partnership is shaping with the major stakeholders in the Indo-Pacific region such US, Japan and France, and how India is balancing these partnerships vis-à-vis the one with Russia. The conclusions point to interesting prospects for the future – China challenge has, in a way, helped India further advance its own ambition of becoming a separate pole or leading power, therefore, India is likely to pursue that status by aligning issue-wise with all the powers.

**Never-ending war on terror / Alex Lubin. - Oakland, California: University of California Press, 2021. 140p.**

**Abstract:** In entire generation of young adults has never known an America without the War on Terror. This book contends with the pervasive effects of post-9/11 policy- and myth-making in the United States in every corner of American life. Never-Ending War on Terror is organized around five keywords that have come to define the cultural and political moment: homeland, security, privacy, torture, and drone. Alex Lubin synthesizes nearly two decades of United States war-making against terrorism by asking how the War on Terror has changed American politics and society, and how the War on Terror draws on historical myths about American national and imperial identity. From the PATRIOT Act to the hit show Homeland, from Edward Snowden to Guantanamo Bay, and from 9/11 memorials to Trumpism, this succinct book connects America's political economy and international relations to our contemporary culture at every turn.

## 18. Lally, Jagjeet

**India and the silk roads : the history of a trading world / Jagjeet Lally. - London: Hurst & Company, 2021. 414p.**

**Abstract:** India's caravan trade with central Asia was at the heart of the complex web of routes making up the Silk Roads. But what was the fate of these overland connections in the ages of sail and steam Jagjeet Lally sets out to answer this question by bringing the world of caravan trade to life--a world of merchants, mercenaries, pastoralists and pilgrims, but also of kings, bureaucrats and their subjects in the countryside and towns. The livelihoods of these figures did not become obsolete with the advent of 'modern' technologies and the consequent emergence of new global networks. Terrestrial routes remained critically important, not only handling flows of goods and money, but also fostering networks of trade in credit, secret intelligence and fighting power. With the waning of the Mughal Empire during the eighteenth century, new Indian kingdoms and their rulers came to the fore, drawing their power and prosperity from resources brought by caravan trade. The encroachment of British and Russian imperialism into this commercial arena in the nineteenth century gave new significance to some people and flows, while steadily undermining others. India and the Silk Roads is a global history of a continental interior, the first to comprehensively examine the textual and material traces of caravan trade in the 'age of empires'. By showing how no single ruler could control the nebulous yet durable networks of this trading world, which had its own internal dynamics even as it evolved in step with global transformations, Lally forces us to rethink the history of globalisation and re-evaluate our fixation with empires and states as the building blocks of historical analysis. It is a narrative resonating with our own times, as China's Belt and Road Initiative brings terrestrial forms of connectivity back to the fore--transforming life across Eurasia once again.

**19. Kashmir and the future of South Asia / Edited by Sugata Bose and Ayesha Jalal. - Abingdon, Oxon: Routledge, 2021. 150p.**

**Abstract:** This book uses an innovative people-centred approach to the Kashmir problem to shed new light on why postcolonial partitions remain unfinished, and why the wounds of postcolonial nation-state formation in South Asia continue to fester. "Kashmir" is viewed as a metaphor for the permanent internal wars of partition that mark the South Asian experience. Chapters sensitively bring Kashmiri voices to the fore to examine Kashmir in the national discourses of India and Pakistan, resistance in the Kashmiri imagination, and the Kashmir conflict in a global context. The book foregrounds how the space of Kashmir as a cultural, historical and political sphere persists and continues to haunt the postcolonial national present as the people of Kashmir and their cultural, literary and artistic productions cannot be contained within the regnant paradigms of the nations across which the region is partitioned. Additionally, the book explores how long-term resolution would demand engagement with historical forces, political actors, and social formations that exceed the nation-state. An important contribution to the study of this troubled region, this book will be of interest to academics and researchers of modern South Asian history and politics as well as comparative politics and international relations.
